

Foundations Restored

A Catholic Perspective on Origins

Seeking the Harmony of Truth about Origins in the Light of Church Teachings, Thomistic Principles, and Evolutionary Claims

As the devil strives to immerse and drown the world in darkness and confusion under the guise of science, and as he savagely launches his attacks on the pivotal doctrines of Holy Mother Church, the "Foundations Restored" DVD series casts a bright light which exposes and defeats the camouflaged lie of the Devil. The series offers logical, scientific, philosophical and theological arguments which not only restore the "Creation Providence" account to its proper place, but also liberate the whole realm of natural science from the grasp of its evolutionist hijackers. I therefore recommend the DVD series "Foundations Restored" without reservation for circulation in the public domain so as to combat error and to proclaim the reign of TRUTH.

Bishop Sanctus Lino Wanok, Bishop of the Diocese of Lira, Uganda

A must have for every Catholic Family.

Reviews of: Foundations Restored: A Catholic Perspective on Origins

The science presented in this series needs to be carefully considered in any program of science or biology which is presented in our Catholic Schools. I look forward to the completion of the entire series.

Bishop Robert F. Vasa, Bishop of the Diocese of Santa Rosa, California

"Foundations Restored" is a must see for any Catholic, whether clergy or lay person, who seeks the truth about what the Church has always taught in regard to Genesis and the origins of man and the universe. In today's anti-life culture more than ever, it is paramount that Catholics trust Divine Revelation over scientific speculation.

Fr. Stephen Imbarrato, LifeMinistriesUS

I heartily recommend the DVD series "Foundations Restored," and I am grateful to God and to the Kolbe Center for this powerful means to bring the truth to souls. As the apocalyptic dragon continues to wage war against the truth proclaimed for centuries by Christ's Bride, the very foundations of our Faith are threatened by the all-pervasive lie of evolution. Hugh Owen and his colleagues simply and deftly debunk the evolutionary myth, restoring natural science to its proper position as the humble handmaid of Divine Truth.

Mother Abbess Cecilia, Benedictines of Mary, Gower, Missouri

The pervasiveness of the theory of evolution cannot be due to its merits because it fails the test of science, logic and metaphysics (to name just three disciplines). Could it continue to gain adherents from a fear of love? The Kolbe Center does a great service in its new DVD series "Foundations Restored" by explaining the impossibility of evolution and more importantly by inviting us to the Love of God revealed in the Creation account in Genesis.

Kathy Sinnott, former Member of the European Parliament for the Republic of Ireland and Co-Foundress of Newman College Ireland

"Foundations Restored" does a great service to the entire Pro-Life community by revealing the roots of the culture of death: Darwinism and the molecules-to-man evolutionary theory. The episodes are high quality, professional, engaging, and in-depth. It not only identifies the root cause of abortion – Darwinism and evolutionary theory – but beautifully presents the Church's doctrine of creation, showing how it can help to build a true culture of life. This is something most laymen and Pro-Life advocates have not been taught. "Foundations Restored" needs to be in the hands of every Pro-Life leader and Catholic teacher. This is the game changer Pro-Lifers have been looking for – and it comes straight from the beginning, in Genesis. –

Michael FitzGerald, President, Carolina Pro-Life Action Network (C-PLAN)
